

Let It Ride

How to play:

In this easy to learn game, you don't play against the Dealer or other Players, you use the Dealer's 2 cards to help make the best 5-card poker hand with your 3 cards.

Play begins when each Player places three equal bets in the positions indicated on the table. Players also have the option to place an additional \$1 bet on the Bonus Sensor. A qualifying hand will pay you an additional Bonus based on the payout schedule.

Three cards are dealt to each Player and the Dealer. The Player may look at his/her hand after the dealer has burned his bottom card. Players may choose to take back their first bets or "Let It Ride." The Dealer then turns up the first community card which players will use to make their best hand. Once again Players have the option to take back their second bet or "Let It Ride."

All remaining Players will tuck their cards under their original bet that must "Ride", and the Dealer reveals the last community card. All Players hands are shown and winning hands are paid according to the following schedule:

Let It Ride Payouts	Basic Pay Table	Bonus Pay Table
Royal Flush	500 to 1	\$10,000
Straight Flush	200 to 1	\$2,000
4 of a Kind	50 to 1	\$100
Full House	11 to 1	\$75

Straight	5 to 1	\$25

Dealers are happy to explain the placement of any bets, but the players are responsible for the correct position of their wagers on the layout, regardless of whether they or the dealer have placed the bets.
