

Slot Machines

How to play:

Slots have never been easier to play than right now at the Alhambra Casino!

We've got the very latest in every denomination with Poker, Reels, Video and even Blackjack! We've got Quick Hit Progressives, Multi Choice Games, slots with exciting bonus rounds and more! So take a look around our casino and see the hundreds of choices you have!

We want you to get the most out of our slots so make sure you have your Alhambra Advantage Card? Membership is FREE and you'll earn generous CASH BACK when you remember to insert your card every time you play!

You'll see that many of our slots are now multi-denomination games. That means that you play one of these great games in pennies, nickels, quarters or halves and even dollars without having to move. All you do is look for the signs on the games and change the denomination – and you can change from pennies to nickels or nickels to quarters without having to cash out!

Alhambra slots also feature "Ticket-In, Ticket-Out®"! With TITO there's no more heavy coin or running out of tokens. Simply press the cash out button when you're ready to move to another game and your winnings are printed right onto a Ticket! Simply move to the next game of your choice and the TITO ticket goes right back in and your credits appear on the meter - you're ready to go!
